

Sydney

22/10/2002

Dear sir/madam

My name is [REDACTED]. I am the coordinator of Youth Activities at Big Mountain Ski Resort. As you know, in the winter of every year we have a lot of ski activities that is allocated in the snowy area of Big Mountain. I would like to introduce to you our great Ski Resort that is currently available for application in this winter.

The skiing activities is a fantastic and interesting sport for our community, especially for high school students. It is popular for thousands of people living around Sydney, during the winter we usually serve at least 5000 people. The snow depth in ~~Sno~~ Big Mountain is fabulous for a lot of skiing activities such as Alpine skiing, night skiing etc. The only activities that is not available in this year is Holi-skiing. The

Snow depth from 1992-2001 is around 110-320 millimetres. With the average temperature during the winter: ~~of~~ -2°C and percentage of fine weather days $\approx 70\%$, Big Mountain is one of the ~~most~~ best area for skiing in Australia.

The distance of Big Mountain from Sydney is only about 526 km, so you can travel by train a few hours to reach the mountain. During the period from June to October of the winter season, there are 250 instructors who can introduce a lot of young boys to learn skiing, as it is a good sport for kids to practice.

It is a great thing to travel with a large group of students because we will provide to you discounted lift and lesson passes and a lot more advantage. This year we try to introduce a new service, which needs only one person to queue to pay for passes or hire. We are grateful for any recommendation that you give us to ~~ma~~ improve our service for you.

I hope we can find a lot of interesting time together, ~~so~~ please call us anytime you want for

more information. The telephone number and our email
are on the brochure.

Yours faithfully
