Biology

Section I (continued)

Part B – 60 marks

Attempt Questions 16–27

Allow about 1 hour and 45 minutes for this part

Answer the questions in the spaces provided.

Marks

Question 16 (4 marks)

‘Modern methods of disease control place more emphasis on prevention than on treatment.’

4

Discuss this statement using at least ONE example in your answer.

Modern methods of disease control ^{do} focus more on prevention rather than treatment. Preventing the disease helps to control it in society.

In schools public health programs are run which include educating the students how to ~~control~~ prevent ~~diseases~~ ~~#~~ infectious diseases & non-infectious diseases & minimise the risks.

Immunisation programs also place emphasis on prevention of diseases, such as rubella etc.
