

Dear Organisers,

The interactive CD-rom "Real Wild Child" shows the students a view of society in the past, it shows the music culture of the past 50 years and comments on the way people lived and spent their free time, it also shows what they believed in and stood up for I believe that kids today should learn about these sorts of things to help them with the choices they make in the future.

The poem "Americanized" by Bruce Dawe also show the way we are headed as consumers we are turning to the american ideals.

These are the reasons I think these texts should be included in your program. ~~The~~

Many Thanks
