Question 17 (7 marks)

- (a) Using Sources A and B, calculate the percentage of Brazil's population living in Sao Paulo in the year 2000. 1

17.8%

- (b) Using Source A, identify TWO features of the population pyramid that make it typical of a mega city in the developing world. 2

• Move younger aged people - little survive to be old.

• Move males - dominate mega cities such as Sao Paulo.

- (c) Describe ONE health issue and ONE social issue that a mega city in the developing world could face in the next decade. 4

Health issue ... Disease - water contamination, could only worsen, causing any number of terrible diseases.

Social issue ... Little employment - with decline in money & in population, there will be few jobs left available
