Question 17 (7 marks)

- (a) Using Sources A and B, calculate the percentage of Brazil's population living in Sao Paulo in the year 2000. 1

..... approx 10.7%

.....

- (b) Using Source A, identify TWO features of the population pyramid that make it typical of a mega city in the developing world. 2

..... most populated age is very young 0-4 yrs.

..... This happens in all developing countries.

.....

- (c) Describe ONE health issue and ONE social issue that a mega city in the developing world could face in the next decade. 4

Health issue Break out in a new disease
caused by the open sewer combined with
over population. Spreading the disease
quicker ~~and~~ contaminating more than 1/4 population

Social issue A court case against the wealthy
as they won't let buildings be built on there
huge properties. There is barely any land
left as overpopulation is becoming worse.
