

Geography

Section II (continued)

Question 17 (7 marks) **Marks**

(a) Using Sources A and B, calculate the percentage of Brazil's population living in Sao Paulo in the year 2000. **1**

~~1~~
.....
.....

(b) Using Source A, identify TWO features of the population pyramid that make it typical of a mega city in the developing world. **2**

• The birth rate is very high
•
.....
.....
.....

(c) Describe ONE health issue and ONE social issue that a mega city in the developing world could face in the next decade. **4**

Health issue In the 1970's, Smallpox was virtually eliminated, but only to be replaced with other problems such as Aids, Cholera, and malnutrition. There isn't enough food going to/and coming from third world countries, and what food there is, is unsanitised.
Unbalanced Infrastructure.

Social issue ~~Unemployment~~ The more people migrating to mega cities means the more houses/jobs/roads you need to equip them.
