Section II (continued)

Marks

Question 17 (7 marks)

(a) Using Sources A and B, calculate the percentage of Brazil's population living in Sao Paulo in the year 2000.

     $\%$ pop in Sao Paulo = $\dfrac{17.8 \text{ million}}{165.4 \text{ million}}$ = 1.1%

1

(b) Using Source A, identify TWO features of the population pyramid that make it typical of a mega city in the developing world.

1. More Youth in the pyramide.

2. Evenly spread male/female ratio. Ages+numbers similar through out both genders

2

(c) Describe ONE health issue and ONE social issue that a mega city in the developing world could face in the next decade.

Health issue Pollution - more and more people get sick from pollution and disease as qualities decrease

Social issue space - as mega cities grow, there becomes less space per km^2 for each person, as they are cramped more problems will arise amongst each other.
