Marks

Question 19 (7 marks)

- (a) Using Source I, describe the spatial pattern of the global production of oil in 2000. 3

The production of oil in 2000 is unevenly distributed with the middle East producing almost 3/4 of the market. It is evident that the spatial pattern is uneven throughout the world.

- (b) Describe TWO factors influencing the future direction of a global economic activity you have studied. 4

Global wine production (Australia)

① Organisational: 'New World' wine producers, new ways, techniques, skills and technology.

② Biophysical: Environment, temperature, climate, soil, grapes, different land compared to France, Italy etc.

Both the factors give Australian wine producers a competitive advantage in the global economy.
