

23

a) It should consider; -

- * Technical constraints - some students may not have the latest technology.

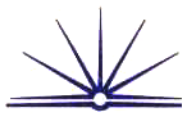

- * Security - fees will be collected online so credit card details will need to be secure.

- * Privacy - student details would not be able to be misused.

- * Economic Feasibility - The fees will have to be fair and the cost of the system will need to be considered.

- * The type of hardware and software needed would also have to be considered.

b) The business would need to provide students with up-to-date and relevant information. It's fees would have to be socially just. The business initiative is an excellent idea as it would provide students with private tutoring from the comfort of their own home and it can be accessed at their own leisure, whenever they want. They would need to keep both student and

credit card details confidential. They would need to design a system that most personal computers would be able to support.
