Question Number: **21**

a)

b) Camera's, road sensors, a processing system, computer, database.

c) This system will allow culprits to be more readily identified, as it captures an image of a vehicle it has identified as speeding, rather than simply identifying that a vehicle has exceeded the speed limit.

d) The drivers have not given their consent to photographs of them being taken. This puts the government at fault, as the images they have captured are to be considered illegal, thus cannot be used to convict the driver that the photograph captured.
