

## Option E: Germany 1918-1945

Albert Speer's career started when he designed a Laser Light show to show the strength of the German army. He also designed a city called Germania it was ~~the~~ a building surrounded by other buildings then residential houses. But the one with the most success was the Laser Light show it was called the Colonnade of Lights. He was also ~~involved~~ involved in the concentration camps for Hitler but was found not guilty for ~~contributing~~ contributing in the establishment of the camps. But this was a lie he did contribute to the camps.
