#### Question 2 (10 marks)

Use Sources A and B and your own knowledge.

How successful were the Allies and the Germans in using technology to break the stalemate on the Western Front?

Both the Allies and the Germans used the technology in hand to their great advantage.

The Allies had made their new technology so that they could try and defeat the Germans. The Allies used Tanks, Airplanes and newer weapons like guns. As they brought along new weapons and much stronger technology both sides had success in taking out the enemy in their style of fighting.

Trenches were also a new way of fighting that both sides had difficulties in defeating the enemy. Using sand bags they dug holes in the soils and they stayed

Question 2 (continued)

these so that they would be better protected from the enemy. Also tanks were a new thing to come out of the war. They were big and made out of steel and very hard to destroy and the success in tanks was great, for as the Allies and the Germans had many victories with them. Although technology was advanced back then all the new technology that they had came to a great help for as if they did not have airplanes and tanks it would be a much longer war to fight.
