

(b i) The significant events of Albert Speer up to 1945 would be he graduated from university as an ~~architect~~ architect then he met Hitler and became Hitler's personal architect where he would design a number of things for Hitler and ~~the~~ Hitler's associates. The things that Hitler had set for Albert Speer to design were Hitler's office and Speer also designed Hitler's house and a number of other homes of Hitler's friends which meant that Albert Speer was to become very famous among the German political leaders. Another thing that Hitler had Speer do was that nearly every where that Hitler went so did Speer whether it was to parties or political

functions Speer was their.

Hitler also had Speer design a major party ~~where~~ where Hitler and the German Nazi Party would appear ~~off~~ in front of the German people and if Speer organised it well it ~~would~~ would be the highlight of his ~~era~~ career. So everything went well which made Speer very popular ~~as~~ an architect.
