Outline how the experiences of trench warfare changed soldiers' attitudes to the war over time.

The experiences that the ~~troops~~ troops experienced would have to be without a doubt the worst they will ever encounter. The soldiers experienced the most poor living conditions as they were fighting men stop. Dead men swamped the floors and injured men layed there screaming in pain.

The soldiers attitudes changed dramatically as they were fighting for there country and also for what they were going through. Over time life and death wasn't a concern they just wanted to defeat the enemy and come home.
