

Question 1 (6 marks)

- (a) Identify an aspect of a gender role and how it has changed over time.

Years ago, women were not allowed to work as the men thought that we were not capable of doing so. But today, women can work in any profession - a doctor, lawyer, truck driver, e.t.c.

- (b) Evaluate the impact of society's expectations of gender on your own personal experience.

From my own personal experience, I believe that young girls are raised to ~~be raised~~ 'act like a lady' which includes to speak ~~and~~ well, dress well, not to flirt or flaunt yourself but for boys, society seem to accept men behaving any way they want. For example - if a female was to sleep around with a lot of men, then we would automatically be labelled as a 'Tramp', but it seems to be the opposite for males as they are praised.
