

Question 1 (6 marks)

- (a) Identify an aspect of a gender role and how it has changed over time.

One aspect of a gender role is that women are child bearers and men are breadwinners. Over time this has changed due to a change in social values and legislation. Women now work.

- (b) Evaluate the impact of society's expectations of gender on your own personal experience.

In sport when I like to play soccer, a game which I am good at, I am criticised as I am told that soccer is a man's game and that women are only allowed to play Netball. This personally has adverse effects upon my game as constantly being told I am not allowed to play as I am a girl is quite discerning.
