

- 8 Select a group and explain how it has benefited from ONE continuity in society. 4

In Australian society teenagers and children have benefited from the continuity of schooling, as it is a government policy that they attend school until the age of 17. This means that up until that age they are continuously being educated and made aware of the world around them. Inevitably upon reaching the end of their schooling they have a wider knowledge and are then able to move into various types of skilled work.
