

## Question 23

9

i The ~~error~~ line 13 ~~is~~ said the system = off therefore the next line should say Process off Not End if so, line 12 is wrong also line 3 should say Process on line 15 is also ~~incorrect~~ incorrect it can't say Read system date, system time if the system is off.

ii Line 3 - Process on  
Line 14 - Process off  
Line 15 = Endif Because the old line should be on line 13 and the other lines moved down.

iii

is Begin ticket Array

store (Ticket Event Number, Ticket Event Name, Number of tickets sold, ticket Event Date, ticket Event time)

For Print ticket = 1 to Number tickets sold

Print (Number of tickets sold, ticket Number, Ticket Event Name)

End for

close ticket

End process ticket

Online documentation is a good one as people can go online and see what is available ~~before~~ so they know they are not wasting their time if they go.

Paper documentation is also good

people can get flyers or up coming events to see whats on.
