(c) Hajj

The Hajj expresses the beliefs of Islam greatly due to the physical and spiritual impact this ceremony has on Islam.

The first stage acknowledges the prayer around Mecca and the seven times Muhammad had to walk, this is a strong representation of Islamic beliefs because millions of people go each year to celebrate this practice.

The second stage is the stoning of the pillars, believed (and strongly believed) to be mirages of the devil to outwit Muhammad's journey.

By practicing this physical thought it clearly demonstrates a significant belief to Islam and by doing so expresses the beliefs to this tradition.
