

Q9. It is felt that Artists do drawing or paintings, it reflects on the social values and also it reflects on the time and place. For example an Artist that draws, draws from his mind either it will be a drawing of his or her life or drawing that happen to a particular person. Whatever the drawing is it is reflected on the Artist the way he thinks the way he sets out his paintings, it also tells us what he his feeling.

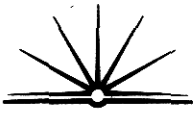

Also it's important to write down or note what time or place what was the painting created. Time is very important it tells us during what time was morning, Afternoon, or Night.

Also tells us what time he started and time he finished. Whether it took a

year or more, place is also very important to a Artist because it tells us ~~where~~ what sought of a person is the Artist is, it is ~~then~~ felt that a place tells many things, it tells us ~~was~~ what sort of a weather, ~~was~~ it, weather it will be sunny day, rainy day windy day etc it tells us what sort of a move the Artist was in.

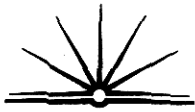

Also tells us ~~was~~ what sort of climate was it, was it a climate with trees all around and was there people in was there any animals, it is also felt that the time and place of the drawing can tell or show us how the (painter) or Artist is feeling. not only that but can tell us what the Artist is giving out, is there a meaning behind all this, is there a reason for the artist to do

a painting like this.

In an Artist view point there are more than just a painting, Artists don't draw just for the sake of it they draw because they have a meaning behind all this, a meaning that will bring everybody's attention. Not only just bringing attention to the painting or drawing but also bringing attention to the Artist's feeling, feeling of love, hatred, soft-hearted, lonely pain & sorrow, etc. Time also gives away the time and effort he put into the painting.

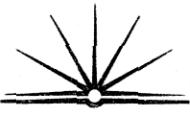

Artists don't think of the incomes but also think about the outcomes it's telling us that Artists not only think about themselves but also what examples or ideas that will help others to rethink about their way

the way they draw, and also help other Artist become better Artist.

Not only is Artist are helping other Artist but helping younger generations to become better Artist themselves make younger go Artist, it's also telling the younger generation, talent is a wonderful thing that wants you have a talent use it to the best of your ability, so if you have that talent to drawing use it never give up, also helps them to better their skills.

There's a "saying" that everybody uses "IF YOU DONT USE YOU LOOSE" don't take it for granted use, so the time and place is very important, the time and place show that hard work and effort that was put into it and the social bit is teaching the younger generation become better

Art and to help, and give  
motivation to the younger generation  
to never give up.

It is felt that drawing is not  
just a drawing that there is a  
meaning behind the painting etc.  
Whether it will be way to felt  
the way another person felt or a painting  
that describes the landscape and weather  
change.
