

4
verly, Trojan, I tell you that I have been harmed by four kinds
groups of men. The first, are those who hate the state, because they
are too stuck in their ways to accept change. The second are those who
believed the state, but who try to abuse their power. The third
are those who are greedy, and want any power and authority.
The fourth are those who are the rulers of the state, they greet me,
they greet the people, but they only seek to possess power and do those
what we have.
